

EDUCATION

- **NMAM Institute of Technology** Nitte, Karnataka
Bachelor of Engineering in Artificial Intelligence and Machine Learning; CGPA: 7.98 2021 – 2025
- **Mahesh PU College** Mangalore, Karnataka
Pre-University, PCMC; Percentage: 77.17 2019 – 2021

EXPERIENCE

- **Cognizant Technology Solutions India Private Limited** Chennai, India
Programmer Analyst Trainee June 2025 – Present
 - Completed training in SAP Quality Management principles and applications.
 - Currently working as an SAP Consultant specializing in data validation for SAP ECC to S/4HANA conversion.

INTERNSHIPS

- **National Institute of Technology Karnataka** Surathkal, Mangalore
Research Intern Jan 2025 – May 2025
 - Worked in the domain of Computer Vision and Machine Learning
 - Developed a Video Captioning model delivering efficient caption generation, with integration of SOTA methods
- **Fidrox Technologies** Jayanagar, Bangalore
Project Intern Jun 2024 – Aug 2024
 - Worked on Security solutions offered by the company
 - Developed a Tailgating Detection System on the basis of Entry Logs and Live CCTV Footage

PROJECTS

- **Sketchify - Turning your Sketches into Reality** Final Year Project — Oct 2024
GAN, Deep Learning
 - Developed a Sketch to Image Generator using GAN and Deep Learning
 - Model training using CelebAMask-HQ Dataset, that involved masks of various features of the Face
 - UI takes in Raw sketch inputs, or ready sketches, processes in the backend using the GAN model
 - Outputs a realistic face image, matching the features of the Sketched-face
- **Image Caption Generator** Mar 2024 – Apr 2024
Python, HTML, CSS, JavaScript
 - Developed an Image Caption Generator by training on a Large Dataset by Kaggle
 - Ability to take an image, which then outputs a relevant caption that describes the Image
 - Developed a webpage to showcase the demo
- **Hand Sign Detection** Feb 2023 – Mar 2023
Python and it's Libraries
 - Developed an application that uses Neural Networks and Computer Vision, that outputs Numbers based on Hand Gesture input through Webcam
 - Trained using TensorFlow, more than 700 images for each input, ensuring model to deliver High accuracy
 - Further implemented other basic Hand Gestures

TECHNICAL SKILLS

- **Languages:** Python, C/C++, SQL, HTML, CSS, Java
- **Frameworks:** TensorFlow, Keras, scikit-learn
- **Business Software:** SAP ECC, SAP S/4HANA, MS Office
- **Developer Tools:** Git, Google Colab, Jupyter Notebook, Visual Studio, PyCharm, CLion, IntelliJ
- **Libraries:** pandas, NumPy, Matplotlib, PyTorch, opencv-python

COURSES AND CERTIFICATIONS

- **Tableau and PowerBI**
- **C++ Programming and Java Programming**
- **Software Engineering Job Simulation on Forage - Electronic Arts**
- **Introduction to Excel - Great Learning**

ACTIVITIES

- **Technical Lead:** CSI - Computer Society of India, NMAMIT Chapter
- **Digital Manager:** FLC - Finite Loop Club, NMAMIT
- **Social Media Coordinator:** TASC, Department of AIML, NMAMIT
- **Core Member:** Samvaada Media Team, NMAMIT
